Resisting Apartheid, Building a Shared Democracy

THE ISRAELI COMMITTEE AGAINST HOUSE DEMOLITIONS (ICAHD) opposes Israel's apartheid and settler colonial policies and works to promote equality and democracy in Palestine/Israel. Founded in Jerusalem in 1997, ICAHD's main focus has been on Israel's demolition of Palestinian homes – more than 90,000 from 1967 through the current destruction of Gaza – a form of ethnic cleansing. Over the years we have rebuilt 189 homes demolished by Israel as acts of joint resistance together with Palestinian partners.

ICAHD UK provides resources for education, awareness-raising and lobbying. We facilitate issue-based study tours to Palestine/Israel, promote BDS campaigns (boycotts, divestment and sanctions) and hold annual conferences. Our analysis comes from ICAHD's Director Jeff Halper and our critical Israeli and Palestinian partners "on the ground."

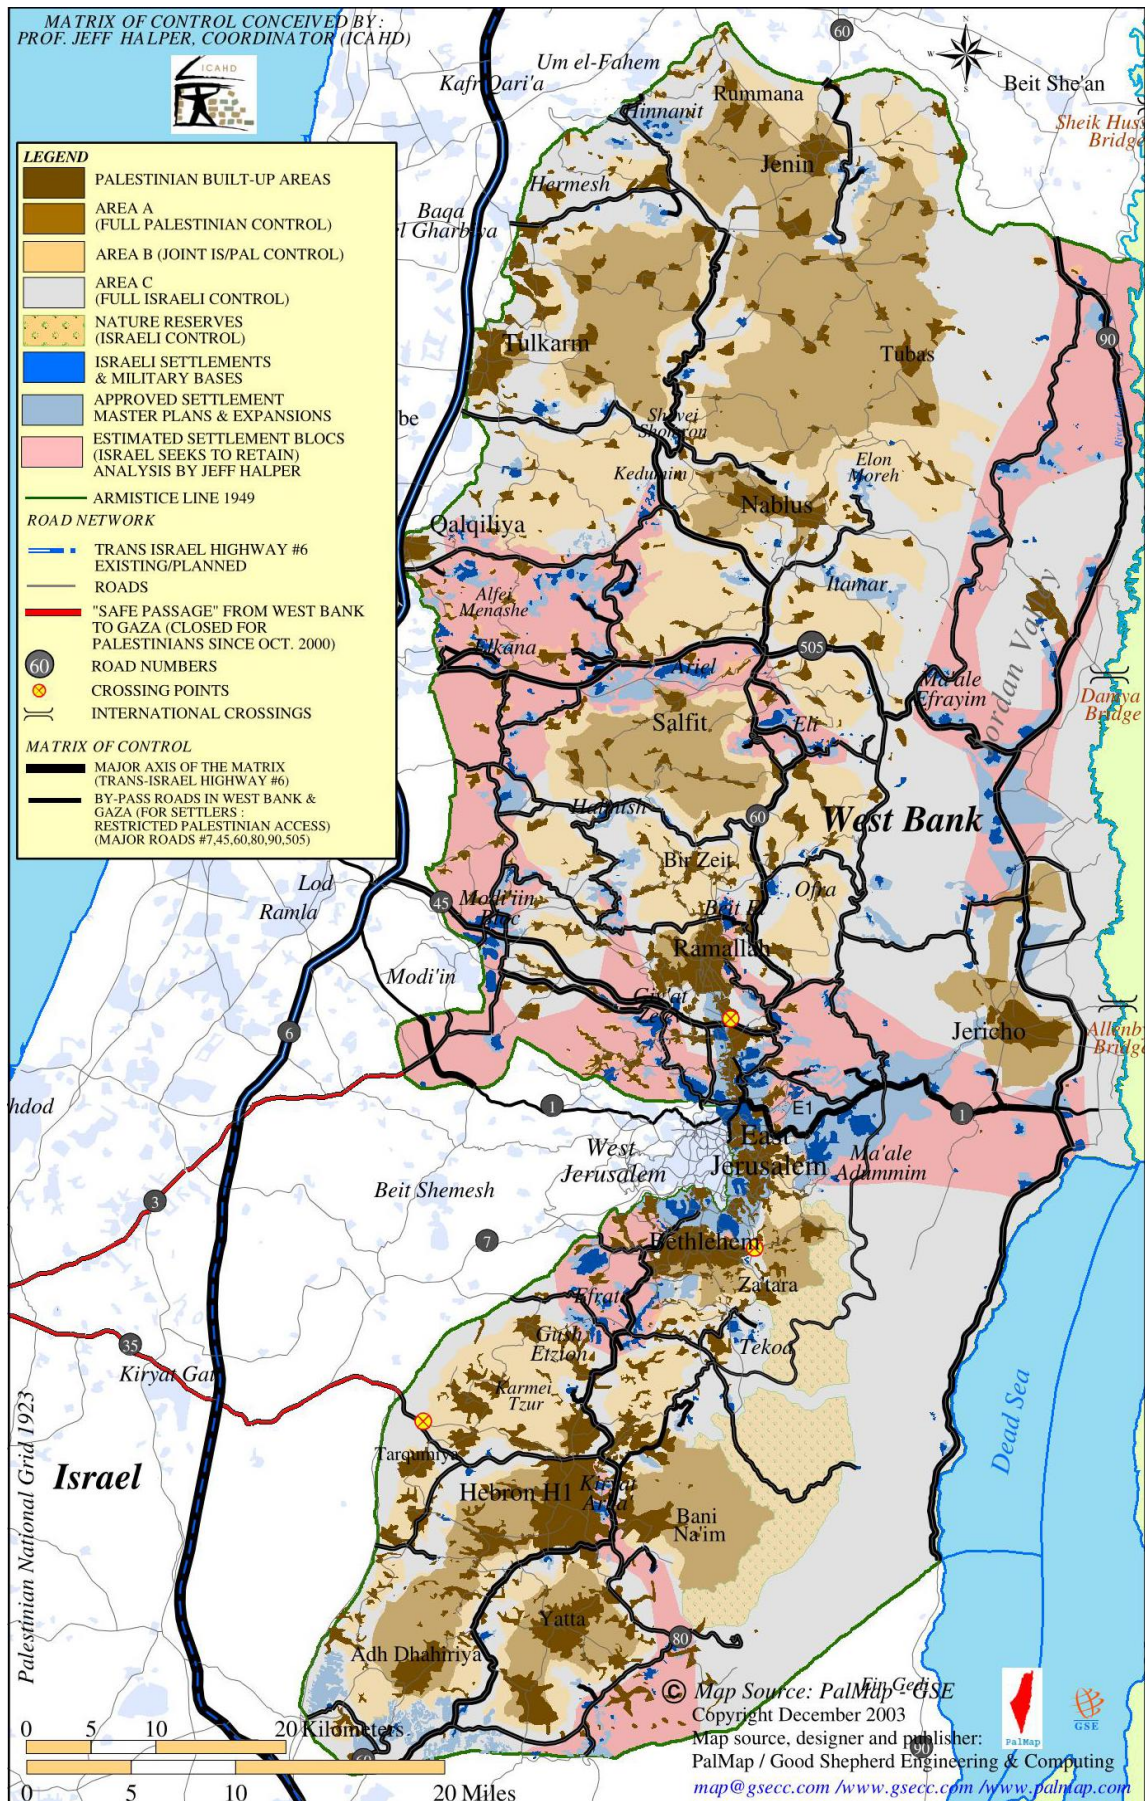

ICAHD UK understands the importance of having a political programme in any political struggle. With our Palestinian partners in the One Democratic State Campaign, we endorse the establishment of a single democratic state for Palestinians and Jews between the River and the Sea. That means:

- Replacing a state based on ethno/religious nationalism with a Constitutional democracy of equal citizens
- Decolonization: Dismantling all structures of domination and control erected by the Israeli regime
- Fulfilling the Right of Return of Palestinian refugees and their descendants
- Protecting the collective rights of the country's national, ethnic and religious communities
- Fostering the emergence of a new shared polity and civil society

Join ICAHD UK to help bring about equality and democracy in Palestine/Israel
