الحركة الإسرائيلية ضد هدم البيوت

Resisting Apartheid, Building a Shared Democracy

THE ISRAELI COMMITTEE AGAINST HOUSE DEMOLITIONS (ICAHD) is one of the leading organizations resisting Israel's colonial apartheid "on the ground" in Palestine. Founded in Jerusalem in 1997, ICAHD's main focus has been on Israel's demolition of Palestinian homes, farms, wells, schools, mosques and other vital communal structures – more than 60,000 in the Occupied Territory since 1967, close to 300,000 in Gaza alone since October 2023 – as Israel ethnically cleanses Palestine. Together with our Palestinian partners in joint acts of resistance, we have rebuilt 189 Palestinian homes that Israel had demolished.

ICAHD challenges Israel's "hasbara" (rhetoric) with a crucial re-framing: There is no Israeli-Palestinian "conflict" between two legitimate "sides." Rather we speak of an anti-colonial struggle fought by Palestinians and their Israeli comrades against Zionist settler colonialism. The one-state political programme ICAHD has forged with its Palestinian partners in the One Democratic State Campaign flows from that re-framing.

As part of ICAHD's international advocacy, **ICAHD UK** conveys its critical political analysis to decision-makers, the media, activists and the public regarding events in Palestine/Israel, informed by a uniquely critical perspective from ICAHD's Director, Jeff Halper, and our Israeli and Palestinian partners.

ICAHD UK focuses on education, awareness-raising and lobbying. It provides:

- a website with a wealth of resources - articles, photos, maps, videos
- monthly newsletters and guidance on campaign actions
- webinars and annual conferences with acclaimed speakers
- in-depth issue-based study tours to Palestine/Israel

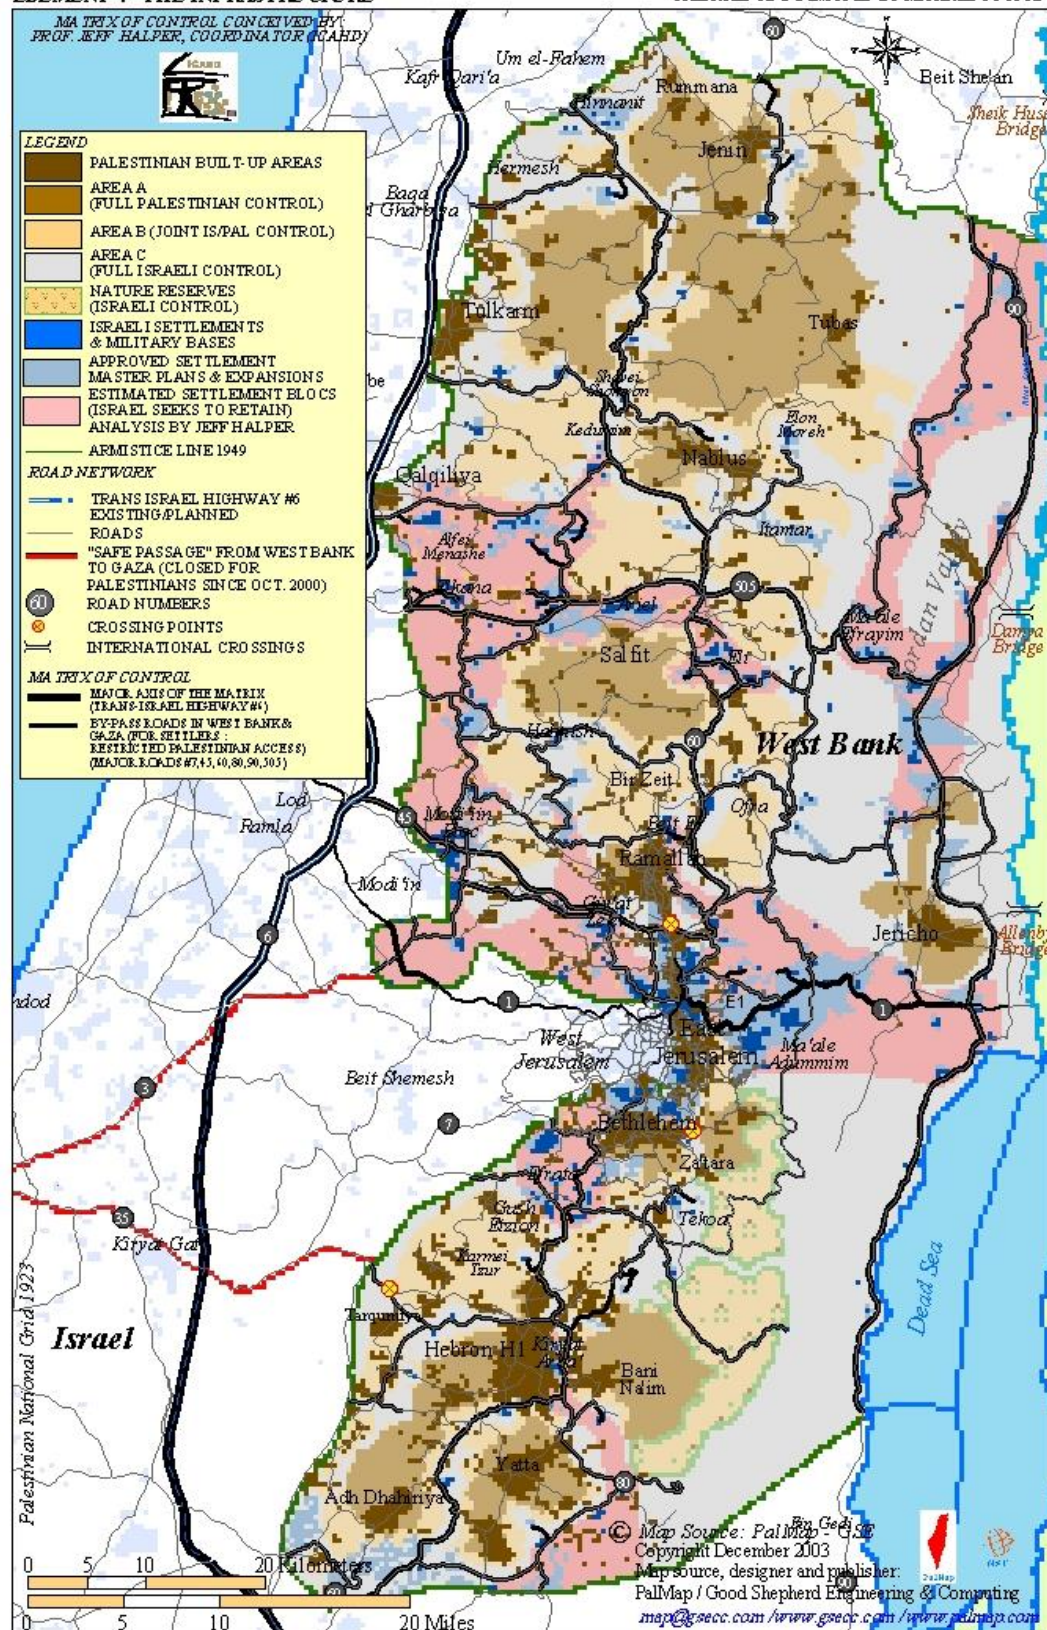

Join ICAHD UK to help bring about equality and democracy in Palestine/Israel
